## SECTION 9 SCUBA TANK

The image shows a screenshot of the MSC.Patran software interface. The main window displays a 3D finite element model of a scuba tank, colored in red and blue. A green callout box on the left contains the text "Read the results back into PATRAN." To the right of the model is a dialog box for accessing results. The dialog box has the following fields: Action (Access Results), Object (Attach XDB), Method (Result Entities), Code (MSC.Nastran), and Type (Structural). Under "Available Jobs", "axisym\_tank" is listed. The "Job Name" field also contains "axisym\_tank". The "Job Description" field shows "MSC.Nastran job created on 26-Jul-05 at 14:35:12". Buttons for "Select Results File...", "Translation Parameters...", and "Apply" are visible at the bottom of the dialog box.
